UAZ PICKUP

RELIABLE FOR WORK,
USEFUL FOR HOLIDAY

FOR WORK...

WORK

For important business, you need an assistant you can always rely on. The UAZ Pickup, combining reliability and safety with spaciousness and practicality, is just such an assistant.

CONSTRUCTION

Need to deliver heavy building materials quickly? UAZ PICKUP is the perfect solution: a spacious cargo compartment, bed with a drop side and legendary off-road performance under any conditions.

AND ADVENTURES

FISHING

To reach the prime fishing spots you need a real off-road vehicle. All your fishing tackle, an inflatable boat and your catch will easily fit in the cargo compartment of the UAZ Pickup so you will be sure your cabin is protected.

HUNTING

UAZ PICKUP is a helper on your hunt! You can take everything and more. The cargo compartment with a spacious sealed enclosure can easily accommodate your equipment, a tent and a dog.

SPACIOUSNESS

SPACIOUS CARGO AREA

Whatever the task or job is, you can fit everything you need in the cargo compartment of the upgraded UAZ Pickup. There is no limitation on the shape of the items except for the capacity of the bed itself. The cargo compartment will easily accommodate even large items.

STYLE

MODERN PICKUP WITH OUTSTANDING FEATURES

The UAZ Pickup is a large vehicle for both cargo and passengers, and it stands out and attracts

New radiator grill with chrome-plated parts and enlarged chrome-plated UAZ logo

Body-coloured rear view mirrors with integrated directional signals

Headlamps with LED daytime running lights

Rear lights

6

COMFORT

The UAZ Pickup interior is designed to create a pleasurable experience in the vehicle. To this end, the upgraded UAZ Pickup has leather trim on the seats, steering wheel, and the new shift lever and parking-brake grips.

COMFORT ALL OVER

Now everyone can appreciate the new interior of the upgraded UAZ Pickup, with its key element being a new leather-trimmed steering wheel. For your comfort and increased safety on the move, the steering wheel now has new functions. And for your convenience, there are now modern steering column controls with expanded functions.

Newly designed right-hand steering column switch with intermittent windscreen wiper control

Second row seats with elbow-rests are also equipped with two high-capacity cup holders

Left-hand steering control switch in the new design with driving turn signal indicator mode and trip computer controls

Newly designed multi-function steering wheel with cruise control and speed limiter, multimedia and speaker systems

Refrigerated glove box with USB port

IMPROVED ERGONOMICS

Multimedia 7-inch touch-screen display with adjustable tilt angle is located at the same level as the revamped white instrument cluster, providing comfort and safety when driving

Power window and exterior mirror controls on the driver's door

Light control unit with improved activation algorithm

System controls on the central console

COMFORTABLE VEHICLE INTERIOR

The upgraded UAZ Pickup interior has been completely transformed: new leather-trimmed 3-spoke steering wheel and control of new functions, all with improved ergonomics! Seat and steering wheel adjustment provide maximum comfort for a long journey or a short trip in the city.

In the upgraded UAZ Pickup, both the angle and height of the steering wheel can be adjusted

VERSATILITY

THE UAZ PICKUP IS RELIABLE AND IRREPLACEABLE FOR ANY PURPOSE!

Whether you are going fishing with a pile of tackle or out on a serious hunt, taking a trip with a big group or delivering building materials in the countryside, the UAZ Pickup can do the job with its comfortable cabin and spacious cargo compartment.

SAFETY

The upgraded UAZ Pickup has modern equipment that gives the vehicle a new level of safety. Thanks to front airbags and safety belts with tensioners, every passenger will be safely protected in the upgraded UAZ Pickup.

Driver-side air bag in the steering wheel and front passenger air bag

Front safety belts with tensioners, force limiters and new height adjusters

ACTIVE SAFETY SYSTEMS IN THE UPGRADED UAZ PICKUP

For the first time, the UAZ Pickup has an electronic stability program, or ESP (along with ABS and EBD). The ESP was added to the UAZ Pickup in cooperation with the German company Bosch. The upgraded UAZ Pickup has a whole range of functions for increasing active safety.

The ESP System

Helps the car maintain its trajectory when there is an increased risk of skidding, slipping or rolling over. In the upgraded UAZ Pickup, ESP can be turned off with the touch of a button.

ABS

Prevents wheel lock-up when braking to maintain the vehicle's stability and control and in most cases reduces the braking distance.

Off-road mode

Is switched on by a special button on the central console for efficient braking on loose surfaces.

The Hill Hold Control System

Keeps the vehicle immobilised for several seconds while the driver moves his foot to the gas pedal, preventing the vehicle from rolling backward on a hill when the brake pedal is released.

The traction control system (TCS)

Provides electronic wheel differential gear locking, optimising the traction on the driving wheels.

The hydraulic brake assist system (HBA)

Engages during emergency braking to ensure a swift stop with a sharp but insufficient depression of the brake pedal.

Cornering brake control (CBC)

Distributes the brake force on each wheel when braking during a turn.

ADAPTATION TO ANY WEATHER

MAXIMUM COMFORT WITH WINTER OPTIONS

The UAZ Pickup is ready for extreme hot and cold, offering not only a modern fan and A/C system, but also heating for various vehicle components: front seats, rear window, side mirrors, the entire windscreen and the rear seats. The upgraded UAZ Pickup has also a heated steering wheel rim.

Modern air conditioning system with climate control

Completely redesigned heating, fans and air conditioning system with climate control functions

FREEDOM OF CHOICE

IT'S ALL ABOUT MORE POSSIBILITIES

The upgraded UAZ Pickup has everything for transporting items needed at work or on holiday. The list of additional equipment includes a protective cover on the cargo compartment with gas springs, which will protect the load from bad weather and external impacts (volume 1181 l). Also available is a glass-free sealed enclosure for the cargo compartment, with an additional stop signal, that can easily accommodate larger items and even a dog (the volume of the enclosure is 2243 l). Safety-bars on the cargo compartment help fasten cargo more securely, reinforce the structure and give the vehicle a more expressive look.

12

UAZ

STEERING CONFIDENCE

For safe parking and improved convenience, the upgraded UAZ Pickup has front parking sensors and the image from the rear-view camera is supplemented with dynamic lines.

With this modern system it is easier to park the upgraded UAZ Pickup in small spaces.

Front parking sensors, which can be turned off, and wear-resistant fog lamps

Rearview camera in the handle of the tailgate

When backing up the vehicle, a color display shows the view from the rear camera with dynamic lines, as well as front and rear parking sensor signals

ADVANTAGES OF ORIGINAL ACCESSORIES

The personal safety of the driver and passengers depends on the quality of the vehicle parts. Original manufacturer's accessories meet all modern technical requirements,

and their durability and reliability have been proved in practice. Genuine accessories and parts can be ordered at parts.uz.ru

INDEPENDENCE

GENUINE ALL-WHEEL OFF-ROAD VEHICLE

The upgraded UAZ Pickup still has all the advantages of a first class off-road vehicle able to reach even the most remote places in the country. Unmatched approach and departure angles, solid frame design, high road clearance and part-time all-wheel drive in lower gears. And as of 2016 these advantages are now joined by electronic rear differential locking.

2H Rear-wheel drive

Motor torque is transmitted to the rear wheels, which saves fuel when driving on roads

4H All-wheel drive

Part-time all-wheel drive brilliantly manages driving under difficult road and weather conditions

4L All-wheel drive and lower gear range

Lower gear input in the 2.542 transmission ratio gearbox, ideally suited for driving on the most rugged terrain

4L+ Rear axle differential lock

The Eaton rear axle differential lock is intended for maximising off-road driving parameters, and is switched on by a button in the cab

THE DESTINATION OF YOUR CHOICE

REAL BODY-ON-FRAME OFF-ROAD VEHICLE

The UAZ Pickup is made more stable vehicle by its extended wheel base, while the high road clearance makes it a genuine off-road vehicle. But it is also important to remember that the UAZ Pickup is a body-on-frame off-road vehicle. The strong ladder frame protects the body from

Impacts as well as from the torsion and tensile loads that occur when driving on rough roads, pulling a heavy trailer or a stuck vehicle. This design helps prolong the life of the car even in most extreme operation conditions.

FRAME DESIGN FEATURES:

1. Impact protection
2. Torsion protection
3. Tensile protection
4. Proportional load distribution
5. Vehicle service life extension

BODY COLOURS

UPHOLSTERY TYPES

Dark leather

WHEEL DISCS TYPES

16-inch steel wheels

16-inch light alloy wheels

POWER AND CAPACITY

PETROL ENGINE

The engine is reliable because of its proven design, and also stands out for its modest fuel consumption and resistance to off-road conditions. It is installed in all configurations of the vehicle and has high torque even at low speed, which helps the upgraded UAZ Pickup confidently take off on country roads and feel comfortable in the city.

DIESEL ENGINE

The diesel engine that sets the upgraded UAZ Pickup in motion was designed in collaboration with the leading foreign engineering companies. It has Common Rail system developed by the world-renowned brand BOSCH and variable valve timing with a chain drive, which helps considerably reduce maintenance costs.

ENGINE AND TRANSMISSION		
Engine type and model	ZMZ - 40906 Petrol engine	Motor diésel ZMZ - 51432
Fuel type	Petrol with octane no less than 92	Diésel
Capacity, l	2,693	2,235
Maximum output, hp (kW)	134,6 (99,0) a 4,600 rpm	113,5 (83,5) a 3500 rpm
Maximum torque, N m	217,0 at 3,900 rpm	270,0 a 1,800-2,800 rpm
Axle configuration	4x4	4x4
Gearbox	5-speed manual	
Transfer case	2-speed transfer case with electric drive (low gear working ratio i = 2,542)	
Drive type	Switchable all-wheel drive system (Part-Time)	
Emission standard	EURO 5, EURO 6	EURO 5
SPEED AND EFFICIENCY		
Maximum speed, km/h	140	135
Urban cycle, l/100 km	6,85	n/a
Extra-urban cycle (at 90 km/h), l/100 km	8,3	10,0
Fuel tank capacity, l	68	68

A real SUV should adequately cope with any tests.

Modern technological solutions and the latest equipment from the world's leading manufacturers guarantee you absolute passage, with the highest level of comfort and safety of our cars.

For 75 years, our SUVs have repeatedly confirmed their outstanding product quality in extreme climates and challenging road conditions.

Hundreds of thousands of kilometers in the steppes of Central Asia, the mountains of Transcaucasia, across the deserts of Africa and the expanses of the Far North, and finally, the victorious ascent to the highest mountain in Europe – Elbrus, all have allowed our cars to become a symbol of overcoming any obstacles in the harshest of conditions.

UAZ. A symbol of passage. A mark of excellence.
